Subject: EID Information Gathering

Good afternoon, everyone,

As you may recall, WED sent a CWA 308 Information Request to DuPont in August 2019 (attached). This request asked for information from DuPont, including new DuPont and EID/Corteva (old DuPont) about PFAS discharges, releases, and emissions that contribute to contamination of groundwater and surface water. We have received some information about current DuPont operations, but limited information from EID/Corteva, none of which pertains to historic operations at the facilities transferred to Chemours. We have been in touch with McGuireWoods, counsel for both companies, to convey the obligation their clients have to respond completely to the 308 (e.g., the attached letter from Joe Theis).

Ex. 5 AC/DP

Please let me know if you are okay with this approach to gathering information. If so, let me know how you would prefer to set up this communication (WED leads the outreach or the region leads the outreach). Please also let me know if you have any questions or would like me to set up a call to discuss.

Thank you.
